

Uploading receipts

Here you can upload receipts that you have paid yourself. If an invoice is to be paid by Smart, you must create it as a direct payment.

1) Make sure that **Smart is the customer on the receipts**. Depending on which company you are employed by, the details are as follows:

SMartDe eG, Wilhelmstraße 150, 10963 Berlin, VAT-ID: DE302421357

Smart Bildungswerk gGmbH, Wilhelmstraße 150, 10963 Berlin

- For gross amounts of **less than EUR 250**, it is possible that no customer appears on the receipts. These receipts can also be submitted.
- Accommodation costs and tickets can be in the name of the employed member

2) Go to "**Expenses > Receipts**" in the Smart Portal and add receipts.

The screenshot shows the Smart Portal interface. At the top, there is a navigation bar with the 'Smart' logo in red, followed by 'Orders' and 'Expenses' with dropdown arrows. The 'Expenses' dropdown menu is open, showing 'Expenses' and 'Receipts' options. Below the navigation bar, there is a sidebar with 'Expenses' and 'Receipts' options. The 'Receipts' option is selected, and the main content area displays the 'Receipts' section. In the top right corner of the 'Receipts' section, there is a '+ Add receipt' button, which is highlighted by a red arrow. Below the button, there is a table with columns: Title, Amount, Date, Type, and an action icon (trash). The table contains two rows of data.

Title ↑	Amount	Date	Type	
test	100,00 EUR	04/09/2024	Work clothes (protective clot...	🗑️
tt	200,00 EUR	02/09/2024	Contributions and membersh...	🗑️

3) Upload the receipt and fill in the required fields with information from the receipt. The title is for recognition purposes and should be meaningful to you.

4) When you are finished, you can save the receipt. You will now find it in your voucher list.

Please note: If you submit receipts to Smart and the costs are reimbursed via an expense reimbursement, you cannot use the same receipt in your income-related expenses or in your income/expenses statement.

Please only submit receipts for a closed period. (For example, separately for the years 2023 and 2024)

Step by step in the Portal:

Uploading files

The portal supports the file formats .pdf and .jpg, so if invoices or documents are uploaded, they should be in these formats. It is also important to note that only one file can be uploaded. Therefore, multi-page documents must be saved as .pdf. If you do not have a scanner but only a smartphone, we recommend installing a scanning app (e.g. Adobe Scan).

Title of the Receipt

The title of the receipt will appear in your list when you select receipts for expense reimbursement, so it should be assignable and recognizable. For recurring receipts, it may be useful to make a time assignment, e.g. "Name-2023-July".

Type of receipt

You can choose a category of your reimbursement from the drop-down list. Read on about [reimbursable goods](#) here.

We will check your entry and adjust it if necessary.

Information on the receipt

The details of the **supplier** (company/person issuing the invoice), the **total amount of the invoice**, the **currency** and the **VAT** rate can be found on the invoice. If several VAT rates are stated, "Mixed VAT" can be selected.

The "**Invoice date**" refers to the date on the invoice.

In the **Description** field, you can briefly explain to the Smart Team what the invoice is about, especially if it is not clear from the invoice.
