5. Library: all materials for you

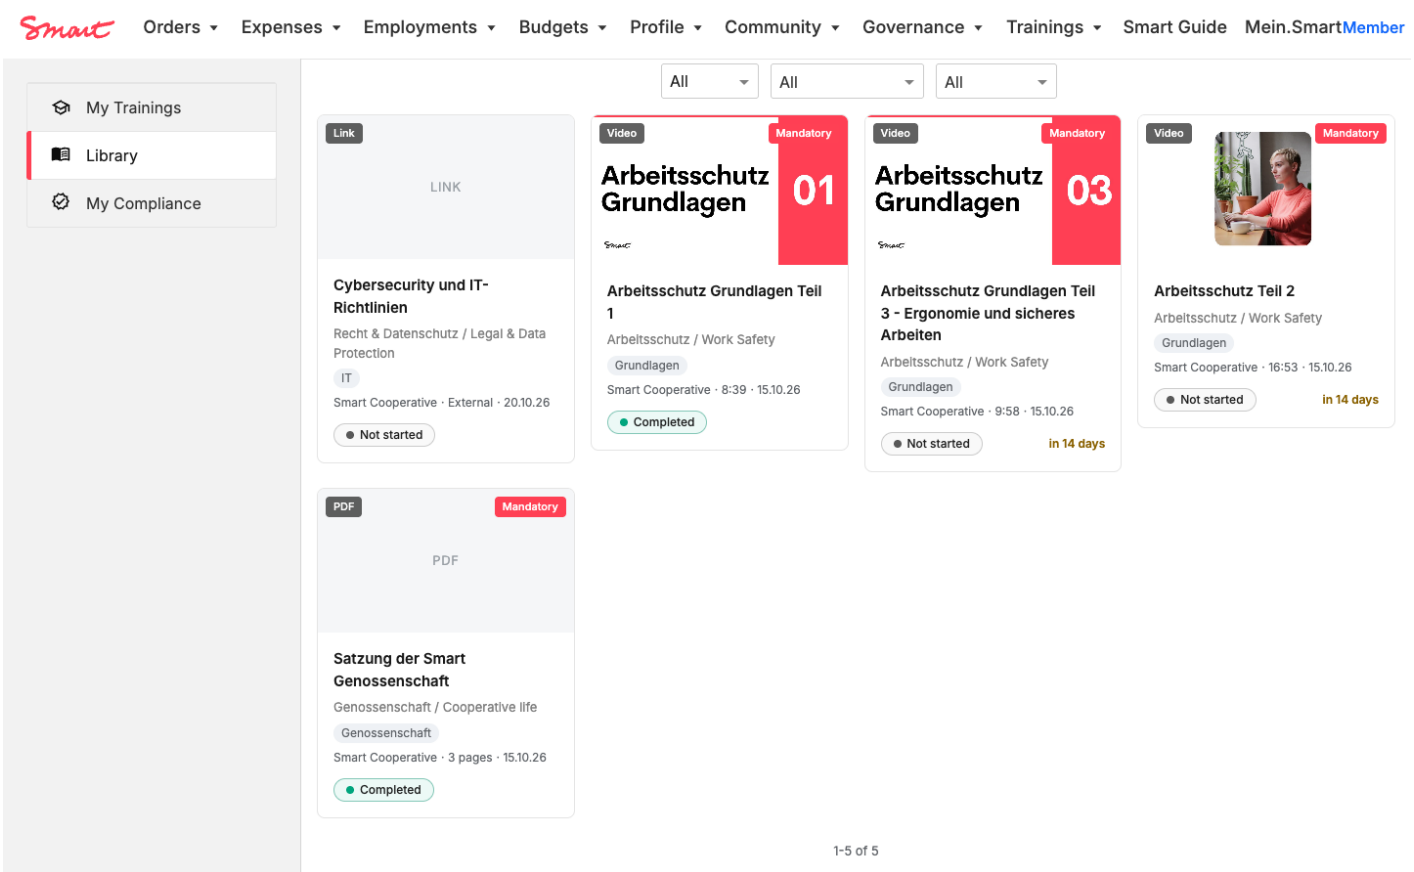

The **Library** shows all materials that are meant for you: mandatory and voluntary.

1. On the left, click **Library**.

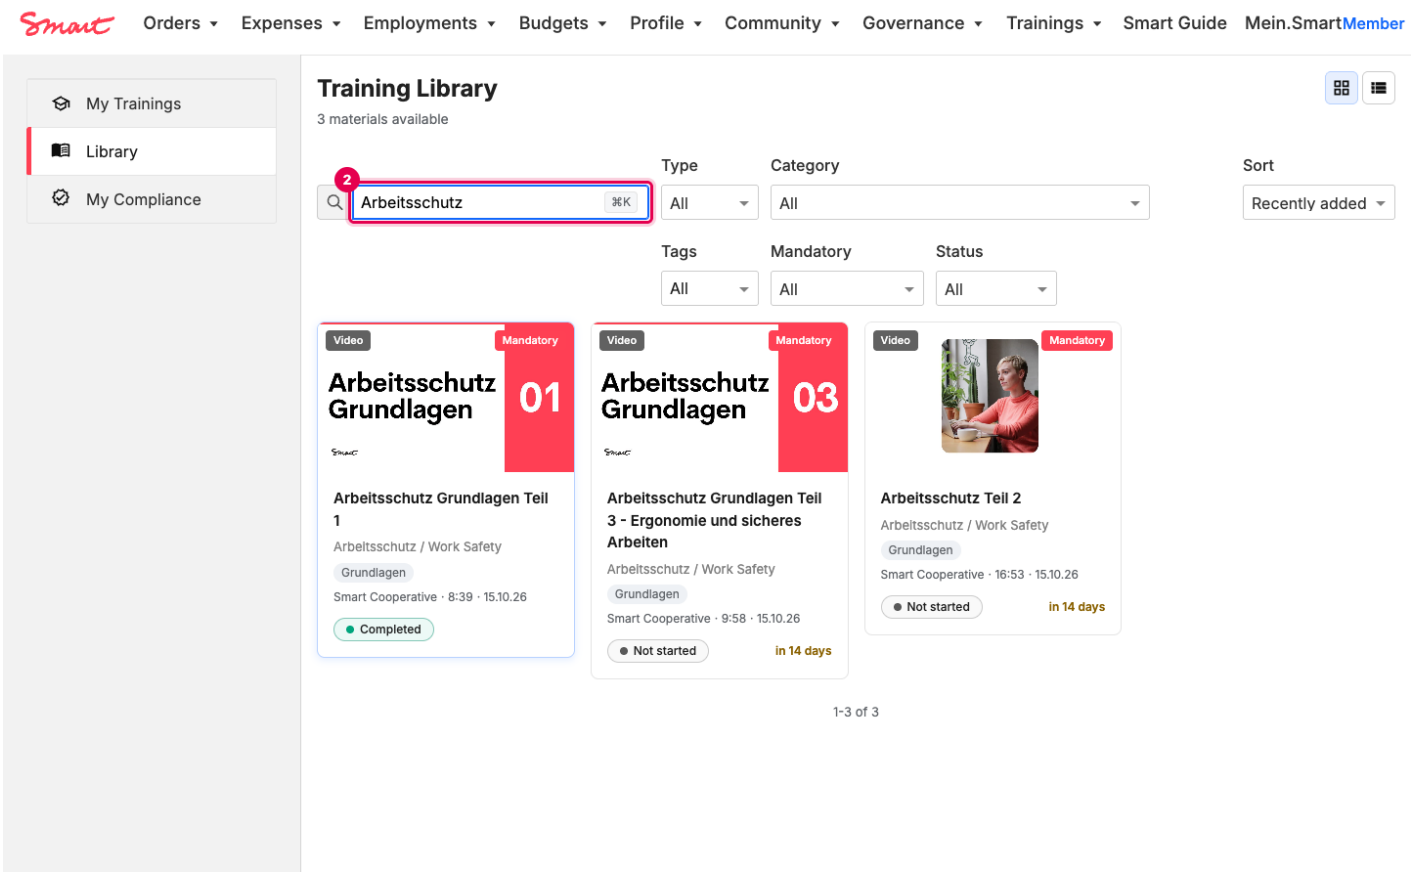

At the top you see the newest materials. Below you see all materials as cards. Each card shows the type (PDF, video, link), if it is mandatory, and your status: **Not started**, **In progress** or **Completed**.

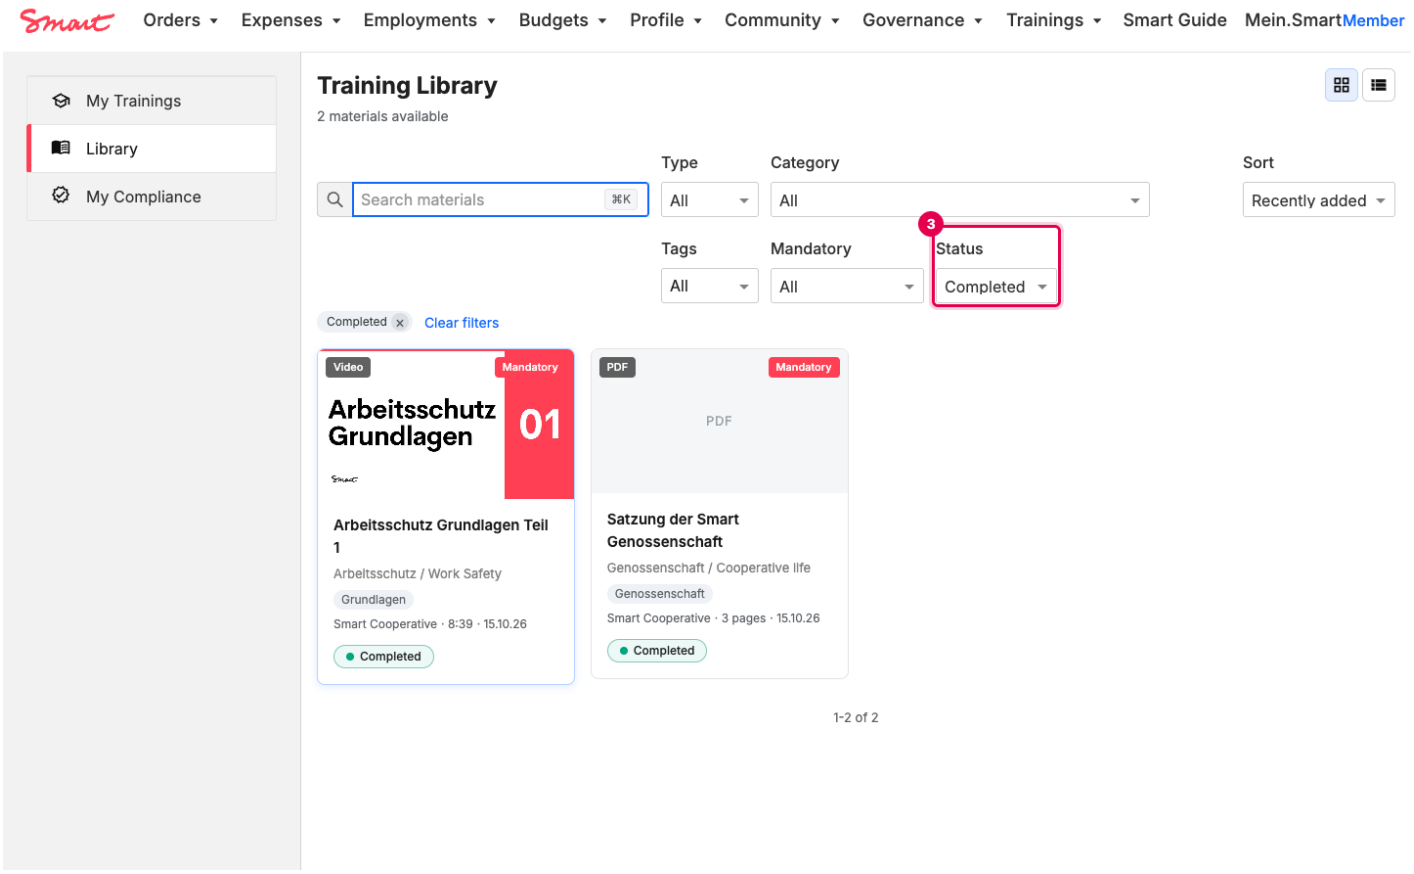

2. To find a material, type a word in **Search materials**.

3. You can also filter the list. For example, choose **Completed** under **Status** to see only what you have finished. Click **Clear filters** to see everything again.
