

Bike leasing

Smart offers a bike leasing program for our employees. **The offer is aimed exclusively at the cooperative members who wish to be employed by Smart for a longer period of time.** The leasing contract is for 3 years and is tied to the employment contract. The bikes must be purchased through the partner stores of [Eleasa](#).

Use this [calculator](#) to check, if the leasing program could be beneficial for you.

If you are interested, please contact us at members@smartde.coop.

Please note that consultation with Smart is obligatory before buying a bike from your budget.

Where does it go from here?

After we agree on the conditions, Smart will create an employee profile for you on the **Eleasa** website. You will receive the client number and ID from us and will be able to log in [here](#).

Further steps are:

- Pick a store affiliated with the program
- Communicate your login data to the store
- Pick your bike
- Sign the "Nutzungsüberlassungsvertrag" digitally at the store
- You'll receive a notification when you can pickup the bike
- The payment is deducted in installments from your salary, so you don't have to settle to bill in advance
- Please note that concerning bike accessories, only these that are screwed on to the bike can be part of the leasing (so e.g. helmets should be purchased individually)
